

# Mission: Zero

to help reduce and eliminate HAIs, including CAUTI and CLABSI as a part of your infection control bundle.

# Here Is What We Know

The CDC implicates **15 pathogens that account for over 86%** of healthcare-associated infections (HAIs)<sup>1</sup>. Of these pathogens, **10 are considered gut-related.**

**References:** (1) Dudeck MA et al., Antimicrobial-resistant pathogens associated with adult healthcare-associated infections; Summary of data reported to the National Healthcare Safety Network, 2015-2017. *Infection Control and Hospital Epidemiology* (2020), 41, 1-18. Doi:10.1017/ice.2019.296

# Here Is What We Know

## Gaps In Protection

Most hospitals decolonize patients with Chlorhexidine Gluconate (**CHG**) but do not address perineum decolonization.

## Current Practice Does Not Address Gut Related Pathogens In The Perineum, Which Can Lead To Infections In:

- Tracheotomy tube
- Central venous catheter
- PICC line
- Urinary catheter
- Surgical sites

Soap and water or equivalent wipes do not decolonize the perineum and can strip away the skin's natural antimicrobial barrier and defensive functions. Most products that can decolonize the skin are either contraindicated for use in the perineum and in mucosa or lack safety and efficacy data.

## A Clear Solution: pH Matters

An ideal acidic skin pH creates a hostile environment to pathogens, while supporting skin integrity and proper skin function. Theraworx Protect's unique low pH formulation **supports 4 systems** that are critical to driving quality and safety **while helping to reduce hurt and harm.**

### pH Acidic Systems

**Key ingredient:**  
Citrus Paradisi  
(Grapefruit Seed Extract)

### Surfactant Systems

**Key ingredient:**  
Cocamidopropyl Betaine

### Barrier Systems

**Key ingredients:**  
Dimethicone, Allantoin

### Preservative Systems

**Key ingredient:**  
Colloidal Silver

## A Clear Solution: pH Matters

**Theraworx Protect provides advanced total body and perineum care, trusted by hospitals and health care settings as a part of their infection control bundles.**

### **Theraworx Protect Addresses the Gaps**

- Advanced perineum care
- One step to total body and perineum protection—reducing time and human error
- Safe for use on compromised skin
- Low-pH formulation supports the skin's natural antimicrobial barrier and defensive functions
- Improve quality and safety while helping to reduce hurt and harm
- No contraindications

Choose from several products to meet your care setting needs.
